

## Pathway to Employment: Pre-Employment Transition Services

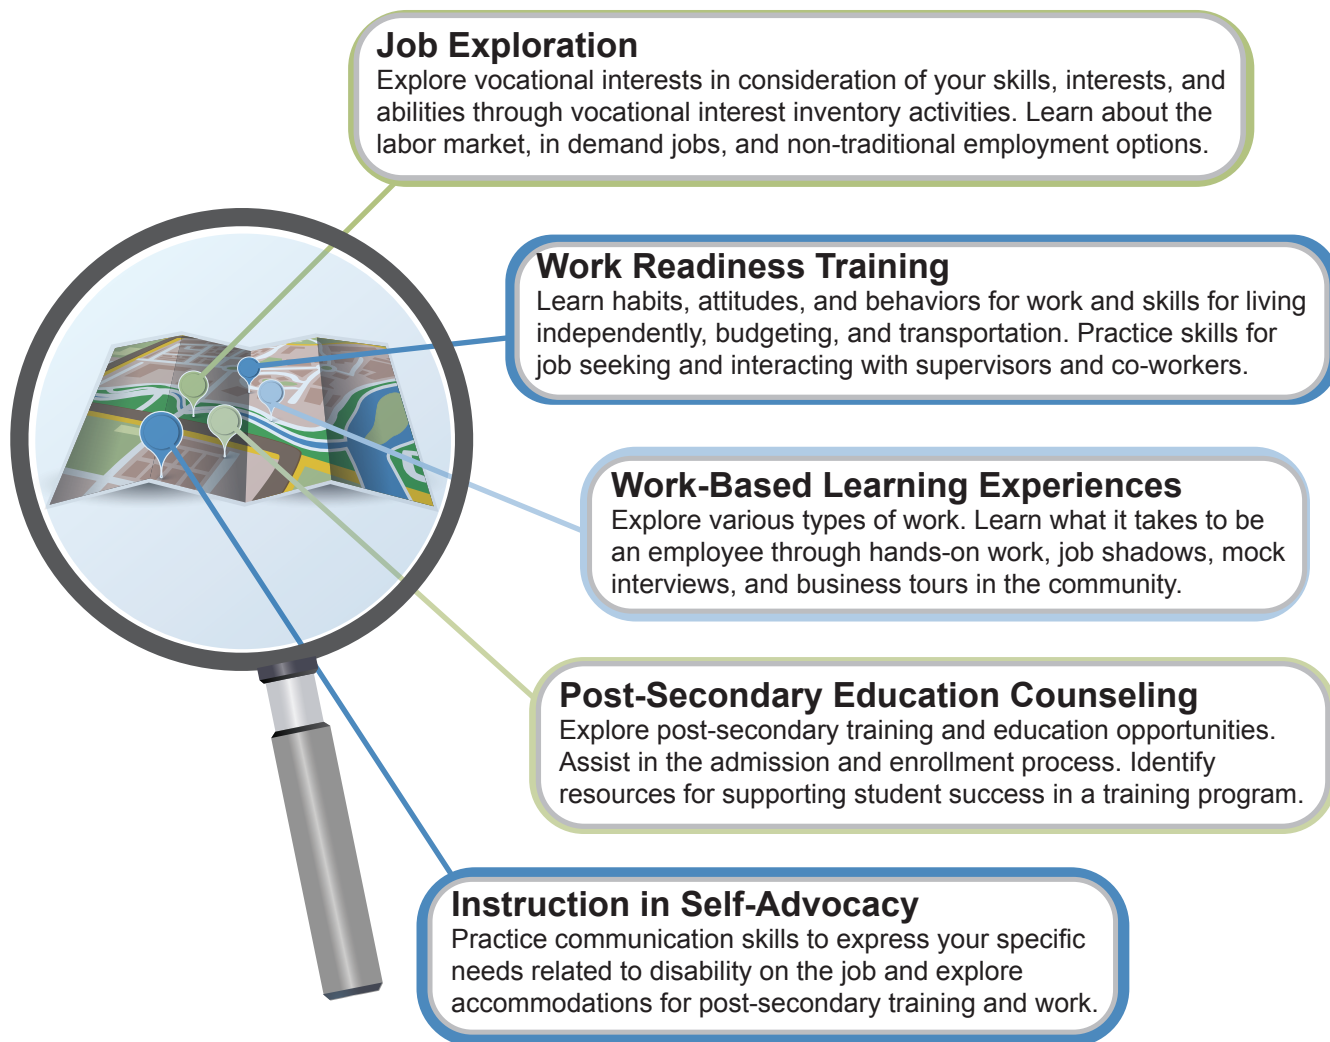

Nebraska VR Pre-Employment Transition Services Coordinators work with schools and other organizations across the state to help students, aged 14 to 21, plan for the future and prepare for careers that match their skills, abilities, and interests.

### To Begin the Journey

- The student and parent or authorized representative complete a Pre-Employment Transition Services Consent & Release form.
- Students meet individually and/or in groups with a Nebraska VR Pre-Employment Transition Services Coordinator throughout the year.

### Exposure and Exploration

The scope of Nebraska VR Pre-Employment Transition Services is to provide students with exposure to various jobs and career paths through exploration activities. In coordination with your school and businesses in your community, you will gain skills and abilities to be successful after high school.

### What Happens Down the Road?

Keep reading to learn the next steps on the path to achieving meaningful employment!

To find the Pre-Employment Transition Services Coordinator who works with your school, go to [vr.nebraska.gov](http://vr.nebraska.gov).

# Continuing the Pathway to Employment

1

## Referral

As you exit high school eligibility, or in some cases before, you will be referred to a Nebraska VR Employment Specialist who helps adults prepare for, find, and keep jobs.

2

## Orientation and Application

Once your information is shared, you will have an orientation or initial meeting to complete an application and discuss goals and employment objectives, education, training, medical, social, and other factors that may impact your path.

3

## Eligibility Determination

Next, eligibility is determined. This is a requirement where Nebraska VR must document your disability through medical or education records and how your disability affects your ability to work.

4

## Individualized Plan for Employment (IPE)

After you have been determined eligible for VR services, your Employment Specialist will help you develop an individualized plan for employment or IPE.

The IPE includes:

- Your job goal.
- When you expect to reach it.
- All the services you need to reach your job goal.
- Who will provide those services.

5

## Participate in Planned Services to Prepare for a Job

The goal of the services identified in your IPE is to prepare you for success in employment. Some services will be provided by your Employment Specialist. Other services may be provided by community partners.

Examples of Nebraska VR services include:

- Evaluation to determine job skills and interests through a variety of worksite experiences such as job shadows or business tours
- Vocational counseling and help in setting a job goal
- Assistance with training or education if needed to reach job goal
- Supported employment
- Help with job seeking and job interview skills
- Special equipment or technology that may help you keep a job
- Working with employers to find a job match for your skills
- Connections with other community resources

6

## Employment

Once you are ready to work, your Employment Specialist will help identify job openings matching your job goal. They will work with you in completing applications, creating resumes, interviewing, and advocating. Changes to the job site or assistive devices to be successful on the job will be addressed once you are hired.

7

## After Employment

Once you are hired and have worked for at least 90 days, you and your Employment Specialist will discuss successful closure of your case. Once your case is closed, if you encounter challenges due to disability down the road, want to advance your career, or if you lose your job, contact your Employment Specialist to re-apply for services. A simple solution may be all that is needed to help you be successful.

Benefits counseling is provided throughout the process to explain how working will affect your federal, state, and local benefits.

We encourage and expect your involvement in the planning process so you can make informed decisions about your goals and the best way for you to achieve them.

Regular communication, keeping appointments, and follow through with your responsibilities is important to stay on track.
